

Eunyul (Estelle) Kim [estellekimdev.com](http://estellekimdev.com) | (714) 719-5688 | [kestelle@sas.upenn.edu](mailto:kestelle@sas.upenn.edu)

University of Pennsylvania — BSE Digital Media Design (Computer Science & Graphics), c/o 2027 GPA: 3.5 / 4.0  
• Coursework: Algorithms & Data Structures, Advanced Computer Graphics, Computer Systems, Linear Algebra

WORK EXPERIENCE

<b>Data Engineering Intern</b> @ Southern California Edison	2025
• Designed and optimized <b>ETL pipelines</b> serving a utility with 15M residents.	
• Independently learned <b>SQL in under 2 days</b> , collaborated with stakeholders to deliver <b>10+ engineering solutions</b> .	
<b>Frontend Web Developer</b> @ Children's Hospital of Philadelphia Center for Autism Research	2025~
• Developing <b>ML-driven</b> research management hub for autism studies using <b>React</b> , <b>TypeScript</b> , and <b>REST APIs</b> .	
• Implemented scalable <b>data visualization &amp; state management</b> components to streamline researcher workflow.	
<b>Undergraduate Business Development &amp; Marketing Intern</b> @ FlexIt Inc.	2024
• Drafted <b>Q4 stakeholder report</b> and investor communications for a late-stage startup.	
• Identified potential partners through research, created detailed partnership strategies, and facilitated meetings.	
• Proposed and implemented <b>UI features</b> and <b>marketing graphics</b> such as a new search bar and promotional cards.	

ACTIVITIES

<b>Vice President External, 2x Project Lead, Full-Stack Developer</b> @ Penn Spark	2024~
• Manage corporate relationships and partnerships for Penn's largest community of creative technologists and designers.	
• Led 2 <b>full-stack product teams</b> ; scoped features, <b>shipped apps</b> to hundreds / thousands of users.	
<b>Industrials Committee</b> @ Wharton Investment & Trading Group	2024~
• Applied <b>financial modeling</b> , <b>competitive analysis</b> , and pitched in intercollegiate competitions.	
<b>Board Member</b> @ UPenn Women in Computer Science Residential Program	2024
• Founded faculty speaker series; organized technical workshops.	
<b>Governmental Affairs Director</b> @ California Association of Student Councils	2024
• Authored & passed <b>3 California laws</b> through direct legislative collaboration.	

PROJECTS

OpenGL Mini Minecraft — <b>C++, OpenGL, GLSL</b>	2024
• Engineered <b>voxel game engine</b> with custom <b>rendering pipeline</b> .	
• Built <b>VBO-based terrain system</b> , <b>procedural sky shaders</b> , and <b>real-time water waves &amp; reflections</b> .	
Internet Atlas — <b>React Three Fiber, ML, FastAPI, Supabase</b>	2025
• <b>Led development</b> as Technical PM for a <b>3D graph visualization platform</b> exploring large-scale browsing data.	
• Built an <b>interactive 3D force-directed graph</b> with custom camera movements for node and edge selection.	
• Engineered <b>animated SVG overlays</b> and <b>zoom/pan controls</b> for intuitive graph interaction.	
• Integrated <b>vector embeddings</b> , <b>semantic search</b> , and <b>real-time ML APIs</b> into a <b>dynamic 700-node dataset</b> .	
Into the Blue: <b>Virtual Museum Experience</b> — <b>React, Node.js</b>	2024
• Developed <b>browser-based storage</b> and <b>scalable camera-to-sticker pipeline</b> for museum exhibition experience.	
• Maintain production deployment for 9+ months for <b>180k visitors</b> with consistent performance.	

SKILLS/ACHIEVEMENTS

**Languages:** Python, C++, Java, TypeScript, JavaScript, SQL, GLSL, OCaml, C  
**Frameworks:** React, Vue.js, Next.js, React Native, Node.js, Django, Firebase, Supabase, OpenGL, WebGL  
**Concepts:** Algorithms & Data Structures, Rendering Pipelines, Full-stack Web Development, Full-stack App Development, Machine Learning, Data Pipelines, User Interface Development  
**Tools:** Figma, Adobe Creative Suite, Maya, Docker  
**Achievements:** 3× AIME qualifier (top 2.5% of test-takers); Korean TOPIK II Level 6 (highest).
