

Estelle Kim + estellekimdev.com · (714) 719-5688 · kestelle@sas.upenn.edu · @estellespace on x

Design engineer building thoughtful, interactive software across graphics, full-stack engineering, and design.

University of Pennsylvania · BSE Computer Graphics + MSE Computer Science · Expected 2027

Currently: Software Engineering Intern at PayPal · Available for full-time roles starting mid-August 2026

PROJECTS

digital loom — GenAI, Three.js, GLSL, TypeScript 2026

Built a material pipeline and tuning interface that turns a fabric photograph into tunable, exportable cloth using AI-extracted PBR maps, parallax occlusion mapping, procedural edge fraying, and a custom warp/weft solver.

Internet Atlas — Three.js, D3.js, React, Pinecone, FastAPI, Supabase 2025

An ML embedding pipeline places websites by visual and textual feel; browsing data becomes a navigable 3D galaxy (300 nodes, 1000+ edges). Technical lead: built the 3D graph and all interactions, designed the data model, connected the backend, demo'd live to 40 simultaneous users on a \$5 hosting budget & made the deployment static afterwards.

Mini Minecraft — C++, OpenGL, GLSL, Qt 2024

Voxel engine from scratch in C++/OpenGL: multi-threading and chunking, procedural terrain, sky shaders, real-time water waves and reflections (team of 3).

Into the Blue: Virtual Experience for Penn Archaeology Museum — React, Next.js 2024

Offline-first artifact hunt. Snap an artifact, keep it as a sticker, all in the browser. Built camera to sticker pipeline (multi-path outline tracing, screenshot-time clipping, etc.) and IndexedDB storage. 1 year, 180k visitors (team of 5).

Simulation & Generative Experiments (live at estellekimdev.com/playground) 2025~

WORK EXPERIENCE

SWE Intern @ PayPal — San Jose, CA 2026

- Building a multidimensional data-vis and hypothesis-testing tool as part of a CTO initiative with senior engs and PMs.
- Surfaced a major area of product friction now under active investigation.

Mobile App UI Designer @ tally — New York, NY | Remote 2026

- Designed and specified end-to-end mobile UI, interaction flows, and state logic for a habit-based fintech app.
- Solo designer: built interaction patterns and interface states spanning contracts, onboarding, and verification.

Data Visualization & Engineering Intern @ Southern California Edison — Rosemead, CA 2025

- Designed and optimized ETL pipelines serving a utility with 15M residents, delivered solutions to 10+ internal teams

Frontend Web Developer @ Children's Hospital of Philadelphia — Philadelphia, PA 2025-6

- Contributed to ML-driven research management hub for autism studies using React, TypeScript, and REST APIs.

ACTIVITIES

Vice President (External), 3x Project Lead, Full-Stack Developer @ Penn Spark 2024~

- Lead corporate partnerships and recruiting / career events for Penn's community of creative devs and designers.
- Led redesign and rebuild of Spark's website, improving information architecture, branding, and maintainability.

Industrials Committee @ Wharton Investment & Trading Group 2024-6

- Applied financial modeling + competitive analysis, and pitched in intercollegiate competitions.

Governmental Affairs Director @ California Association of Student Councils 2024

- Authored & passed 3 CA laws, facilitated a 20-organization coalition including ACLU and Human Rights Watch.

SKILLS

Languages: Python, C++, Java, TypeScript, JavaScript, SQL, GLSL/WGSL, HTML/CSS

Frameworks: React, Three.js, OpenGL, WebGL/GPU, Next.js, React Native, Node.js, Django, PostgreSQL, Supabase

AI / Gen-Media: PyTorch, LLM transformers, Computer Vision, Image/Video/3D genAI, Claude Code / Codex

Tools: Figma, Adobe Creative Suite, Maya, Docker, AWS, Github, Git, Arduino (Electronics), Blender, TouchDesigner

Achievements: 3× AIME qualifier (top 2.5% nationwide); Korean TOPIK II Level 6 (highest).
